Company Profile

Zhejiang Zolway Floors Co., Ltd. is a high-performance green material flooring manufacturer integrating design, research and development, production, sales and service, focusing on the production of high-quality MgO flooring, advocating sustainable environmental protection and healthy life.

MgO flooring is a new type of environmental protection floor, with zero formaldehyde, no TVOC escape, fire retardant, waterproof, moisture-proof, mildew resistant, smoke hot, wear-resistant, scratch resistant, insect resistant, anti-corrosion, no radiation, no PVC degradable, no 19 residues, easy to install, suitable for floor heating and other characteristics, can be widely used in residential commercial floor paving system.

Zolways floors has always paid attention to technology research and development and innovation, we have more than 20 years of professional flooring industry experience R & D team, committed to the floor product technology research and development and new product development, we provide customized floor solutions to meet the individual needs of different customers, at the same time, our services cover floor installation, maintenance and after-sales consulting and other comprehensive services.

Zolway floors always adhere to the "quality-oriented, customer first" corporate values. We focus on team building, encourage employees to play their potential and creativity, and jointly contribute to the development of the company. At the same time, we also actively fulfill our social responsibilities, pay attention to environmental protection and sustainable development, respond to build a green future together, and protect the earth's better tomorrow.

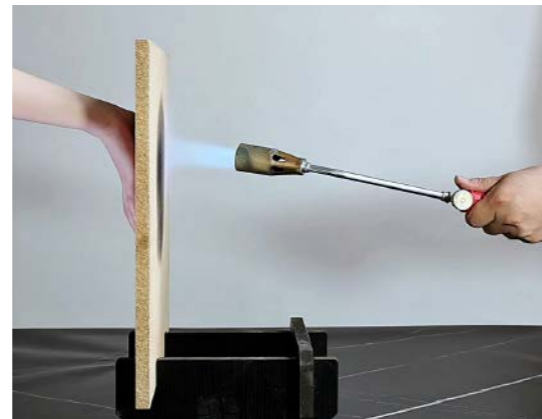

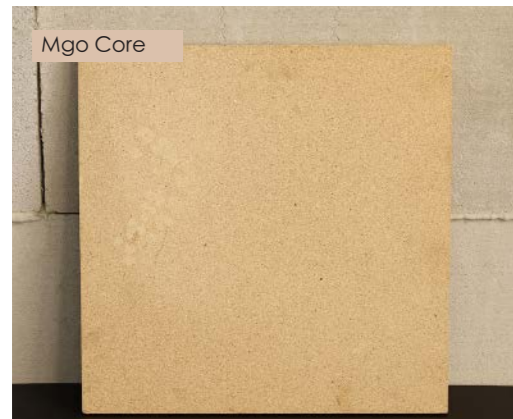

Workshop

- The company covers an area of more than 50,000 square meters of production base, the workshop is equipped with international advanced production equipment and modern environmental protection production line is committed to the production of high quality MgO flooring, strict implementation of international quality management system standards, to ensure that every link from raw material procurement to product delivery has gone through strict quality control. The total annual output of environmentally friendly flooring exceeds 20 million square meters, ensuring that the production capacity meets the needs of the vast market.
- Enterprises through the ISO 9001 quality management system certification, ISO14001 environmental management system certification, products through the Floor Score, SGS, CE and other international authority certification, to provide customers with reliable quality assurance.
- Zolway Flooring is the first batch of enterprises with mature MGO flooring production technology, and with a strong R & D team and superior production technology increasingly strong in the competitors stand out, proud to become China's MgO flooring leader

Mineral Core Performance Advantages & Test Result

Fireproof of Mineral Core

Mineral Core Advantage: We used an excellent fireproof board core, to produce more health safety, more eco- friendly and extreme stability flooring for users.

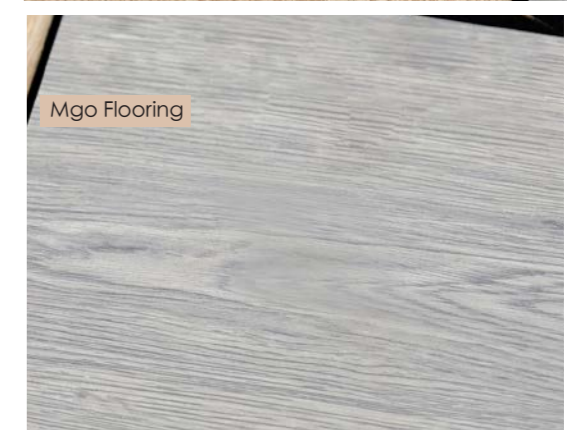

Test results: Through to compare our MgO mineral board with various kinds of flooring material burning at after 15 minutes . In the combustion process,our MgO flooring no pungent toxic smell , no combustion, no flame, no smoke, no deformation. t can be effectively prevent the spread of fire, protect life and property safety.

Fireproof & Smoke-proof

The SPC flooring was severely deformed within 10 seconds, producing a pungent smoke smell. Our Mgo flooring is smoke-free, non-deforming and non-burning. Very suitable for hotels, hospitals, schools and other public places.

Test results: Compared to SPC flooring, our MgO flooring not burned, not left smoke marks and the surface intact. Recommend hotel,school,hospital,bar and other places.

Mineral Core Performance Advantages & Test Result

Wear-resistant & Scratch-resistant

Test results: Our MgO flooring is fully resistant to abrasions and scratches from daily use, extending the life of the floor. Suitable for commercial, residential, cruise ship, recreational vehicle etc.

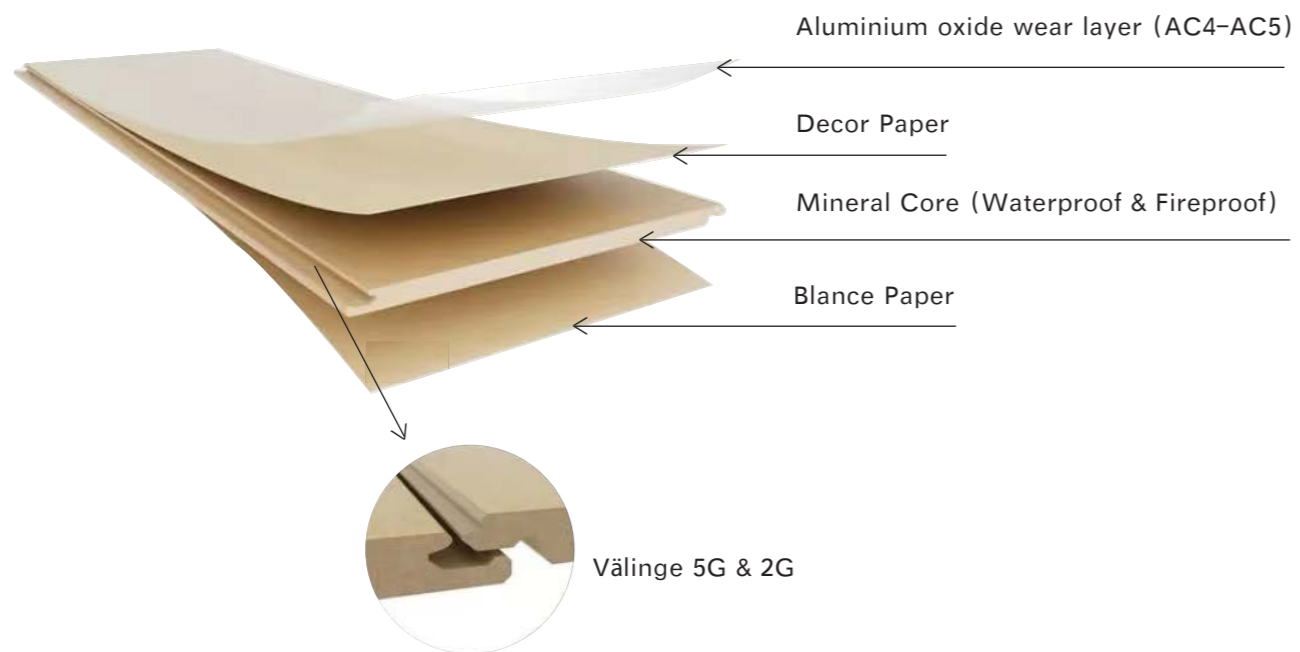

Boiling in hot water test & Waterproof

Test results: Through boiling in hot water and immersion experiments test, the stability of our MgO flooring is completely superior to any flooring on the market.

Features

- Fireproof Class A (ASTM E84); No-flame; No-burnt; No Toxic Smoke; No TVOC
- Non-formaldehyde; No Fiberglass; No Benzene; No Glue; No PVC
- Health safe; Eco-friendly; Degradable; No 19 heavy metals
- Wear-resistant (AC4-AC5); Anti-scratch; Pet-friendly
- Waterproof; Moisture-Proof; Anti-mildew; Termite proof; Anti-slip
- Suitable for all kinds of floor heating

Specifications

- Model: ZW-M001
- Size: 48*8" (1215*198mm)
- Board thickness: 8.5mm+IXPE(2.0mm)
- Colors: Based on stock or Customized
- Mineral Core: Many kinds of inorganic materials and natural plant fibers with water
- Warranty: 15 years for commercial and 25 years for residential

Features

- Fireproof Class A(ASTM E84); No-flame; No-burnt; No Toxic Smoke; No TVOC

- Non-formaldehyde; No Fiberglass; No Benzene; No Glue; No PVC

- Health safe; Eco-friendly; Degradable; No 19heavy metals

- Wear-resistant(AC4-AC5); Anti-scratch; Pet-friendly

- Waterproof; Moristure-Proof; Anti-mildew; Termite proof; Anti-slip

- Suitable for all kinds of floor heating

Specifications

- Model: ZW-M002

- Size: 48*8"(1215*198mm)

- Board thickness: 8.5mm+IXPE(2.0mm)

- Colors: Based on stock or Customized

- Mineral Core: Many kinds of inorganic materials and natural plant fibers with water

- Warranty: 15years for commercial and 25 years for residential
